## Executive Report

---

Prepared by: Charles McCarthy

Date: March 13, 2024

Executive Portfolio: President & Lands and Resources

### **PRESIDENT HIGHLIGHTS**

- The LCAC (Lands Claims Agreement Coalition) recently attended meetings with Canada, including cabinet ministers, to:
  - Address concerns that non-treaty Nations can obtain rights took us treaties to obtain.
  - Advocate for the passage of an act through Parliament that will clearly state that all federal laws are to be interpreted to uphold the Aboriginal and treaty rights of the Indigenous peoples of Canada, and not invalidate them.
  - Advocate for the establishment by Parliament for a Commissioner of Modern Treaty Implementation (CMTI) who will report to Parliament on the status of implementation of Treaties – this will enhance accountability on Canada to meet their treaty commitments – we’ve been pushing for this for over 20 years – finally looks like it will occur.
- In February, attended the Alliance of BC Modern Treaty Nations annual leadership meeting and the AGM of the Alliance’s Society. The Society was recently created to enable the Alliance Nations to obtain funding directly from BC, have staff and enable greater advocacy for the eight Modern Treaty Nations within BC. The Society obtained \$1.5 million over 2 years.
- As the BC Government reviews its legislation to be consistent with UNDRIP, we need to ensure that our Treaty rights are not eroded, and that YG’s voice and positions are heard by BC and other Nations. We created a new department in January - Intergovernmental Affairs, with staff expected to grow to four by September. All positions will be funded by Government grants.
- Currently in negotiations with Canada through the Self-Governing Indigenous Governments group to obtain committed long-term funding for Lands, Resources & Treaty Management, Infrastructure, and Language, Culture and Heritage.

- We obtained support from the District of Ucluelet for our request to BC for joint management with BC of our foreshore in the inlet - we expect that negotiations with BC will take another year.
- Given Ucluelet is Yuułuʔiłʔatḥ traditional territory, our staff is currently developing a draft relationship agreement with the District of Ucluelet for the Executive to consider.

#### **LANDS AND RESOURCES PORTFOLIO HIGHLIGHTS**

- On February 29, YG received \$19,026,566.00 for the settlement of a specific claim under Canada's Specific Claims Policy related to Canada's mismanagement of timber on former Yuułuʔiłʔatḥ Indian Reserves. The funds are currently being held in an interest-bearing bank account until such time that new legislation and investment management and policies are finalized to oversee the disbursement of funds for specified purposes. Engagements with citizens on the draft legislation are anticipated to take place in April.
- Projects for the Salish Sea Initiative have been ongoing. The 36' Landing craft is expected to arrive this month. Funding in the 2024/2025 fiscal year is confirmed to receive \$300,000.
- The Joint Fisheries Committee (JFC) with Maa-nulth Nations and Canada determined that we used the full underage for sockeye and were slightly under other species.
- In partnership with Forsite Consultants, we are developing an Integrated Resource Management Plan (IRMP) to support land and resource management within the traditional territory. A conservation Network will be established to further integrate and connect ecological, cultural, and social values. Next steps will be community engagement and developing practices to inform future forest management planning and practices.
- We are collaborating closely with the Ministry of Forests to continue our efforts in obtaining a First Nations Woodlot License in the Arrowsmith TSA and in the Kennedy Lake area
- Ministry of Forests has offered YG a First Nations Opportunity agreement (FTOA) which is the undercut volume of 80,000 m3 from the Interfor license in Arrowsmith TSA.

## EXECUTIVE REPORT - CULTURE, LANGUAGE & HERITAGE

Prepared by huupkʷistaʔaqs Asya Touchie - Member of the Executive for the hitaču Assembly March 18/24

The winter is nearly over and I for one am looking forward to a very productive spring and summer for the Yuuʔuʔitʔath Government. We've made a lot of progress in the Department of Culture and Heritage recently and I'm pleased to share some highlights.

We are continuing to work with the Royal British Columbia Museum to repatriate Yuuʔuʔitʔath artifacts. We are anticipating the return of additional artifacts later this year and are assessing opportunities to take ownership of items while they remain in the museum until we are able to bring them home. We have heard from citizens and elders about this important work and look forward to continuing this engagement as a central part of our repatriation efforts.

I'm pleased to share that the baby welcoming will be returning to hitaču in the spring. We last hosted this event in 2018 and it was such a valuable opportunity for citizens to connect with each other and with our culture. And of course, it's going to be wonderful welcoming and celebrating a new generation of Yuuʔuʔitʔath.

The canoe log that was located in Ucluelet has been returned to hitaču. This is the start of the new cultural outdoor space that will be located next to the mini big house. I am excited to see the progress and to have citizens gather in the space.

Unfortunately, Ahousaht will no longer be a destination for Tribal Canoe Journeys this year. However, work is underway to launch our own Yuuʔuʔitʔath canoe paddle that will involve travelling around the Ucluelet area. Stay tuned for more information on this exciting opportunity!

## EXECUTIVE REPORT - CULTURE, LANGUAGE & HERITAGE

Prepared by huupk<sup>h</sup>ista?ags Asya Touchie - Member of the Executive for the hita?u Assembly March 18/24

Culture Nights are taking place twice a week in hita?u and the number of participants has been steadily growing. I want to extend a huge thank you to everyone who has taken the time to attend and would encourage anyone who hasn't had the chance to stop in if you're able. Our culture should be accessible to all of our citizens and opportunities like this allow us to build connections with each other and to learn more about our shared heritage. Our culture has so much value and I look forward to continuing to work with citizens to promote and share it.

### NOTES to Budget/Multi-year Plan

The YG recently created an updated **strategic plan** from directives obtained through extensive community input and government review. The 2025 budget/financial plan is informed by the strategic priorities established by the Executive out of the strategic plan. The budget/multi-year plans will more closely reflect the government's strategic plan.

#### **2025 - 2029 FINANCIAL PLAN (Multi-Year Plan):**

##### **REVENUE:**

The **Fiscal Financing Agreement (FFA)** is the government's main source of operating (core) funding and is from Canada. The current agreement is expected to be renewed or extended in 2026. Total 'core' funding in the FFA 2025 is \$8,1MM to fund 'core' government programmes. Expenditures for 'core' YG programmes exceed this and are drawn from other annual funding.

Other' revenues within the FFA include additional infrastructure funding to support housing and other infrastructure maintenance and growth (e.g., community buildings, water/waste water, roads).

**RRS**, or Resource Revenue Sharing agreements are in place with Canada and British Columbia. These include logging and transaction taxation revenues (G/PST) as determined annually by contractual formulae. The recent reinstatement of Section 87 tax exemption for Maa-nulth Treaty Nations, is reflected in reduced revenues from sales taxes.

**Forgiveness of Treaty Negotiation debt** is the repayment of former loan payments by the Yuutu?il?ath Government (YG) to Canada which were incurred for treaty negotiation. Canada has waived the obligation to repay these loans and past payments are being reimbursed to the YG by Canada. These annual payments will end in 2025. Most of these funds have been set aside into reserves for future strategic expenditure.

**FNBC First Nations BC Gaming** revenues are received through the partnership of BCFNs from BC gaming revenue sharing annually. Most of these annual funds have been set aside for future expenditure.

**Annual Implementation fund investment returns** are the planned withdrawals from the implementation fund investments in accordance with the Statement of Investment Policy to support the costs of governance and programming as a treaty nation under the 2011 FFA Schedule D. In Budget 2024-2025 these have been allocated to the Culture, Language and Heritage department, which is currently not funded under the FFA with Canada.

**Deferred revenue** is grant funding received in past fiscal years which was not fully expended. Based on funding agreements these funds are rolled into following fiscal years for use as intended. Budget includes estimates only, total \$2.9MM to 2025.

**Proceeds from settlement claims** are undetermined, but estimated here for recognition in the year expected. These are legal settlements from Canada for specific claims. The current intent is to set these aside for future/ongoing uses as yet to be finalised, but in accordance with the strategic plan.

**Transfers from Reserves** include both statutory (legally required, such as the Tangible Capital Assets) reserves and internally restricted reserves (those prior year surpluses or unrestricted funds that have been formally set aside by the YG). These reserves are generally pulled into the budget to cover expenditures as intended/regulated.

*\* Internally Restricted Reserves (IRS):*

**Gap funding** is intended for use in housing repairs and community infrastructure development  
**Forgiveness of Debt** is the recovery of former loan payments made to Canada by YG to repay  
**Infrastructure/Life Cycle/Housing Investment Capital** is other FFA funding - now annual

**EXPENDITURES:**

Currently, the costs of ongoing annual core services are combined with other short term projects. Future budgets will show the core operating and special/one-time projects separately.

**Bank debt** annual repayments total approximately \$405,000 in 2025. The most significant loan is about \$4MM for the cixwatin community building. CMHC-ANTCo low interest loans fully paid by social housing rents and subsidies, about \$220,000/year.

**Inflation:** the consumer price index, or CPI, per Statistics Canada, September 2022 to September 2023, was 3.2-3.8%, a much lower year-over-year increase than the prior year. Because of the cyclical variations in inflation this rate informs cost estimates, but is not directly applied. For example, a general estimate of 3% was used throughout the budgeting process for 2024-2025, due to the falling inflation rate.

**Payroll:** In budget year 2024-2025 the *proposed* (not yet approved) addition of several new staff positions is included for budgeting purposes. Along with the inflation-informed increases proposed, the budgeted payroll increases by about 15% over the 2024 budget. About \$2.1MM of PR costs are funded by non-core or external grants.

PR Budget 2024-25	\$7.9MM	(assuming all positions filled for the entire year)
PR Budget 2023-24	\$6.9MM	(all positions were not filled during year)
PR Budget 2022-23	\$5.8MM	(all positions were not filled during year)
